Changing the world
of work for good

£££

**BRITAIN
STILL
NEEDS A
PAY RISE**

All public sector workers deserve fair pay

Hard-working public sector workers, from nurses, firefighters and hospital administrators to civil servants and social workers, are up to £3,000 a year worse off since 2010. Their wages are not keeping up with the cost of living while they're under more and more pressure.

Support public sector workers by joining us
