People are losing hope on all sides of the Brexit debate, feeling that their future has been stolen.

The government is tied in knots. Labour has **six tests** for a Brexit deal that the government is unlikely to meet.

The DUP, a small christian fundamentalist party, is using the balance of power to undermine the **Good Friday Agreement**.

Many Remainers hope Brexit can be overturned in a **second referendum**.

Meanwhile public services are starved of resources and the NHS is being privatised by stealth.
